To: Dan Garcia, Prescott National Forest

From: Steve Sams, National Wild Turkey Federation

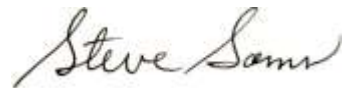

Subject: Final Report for Log Spring Project, Agreement No. 13-PA-11030905-001

All work specified in the project agreement for the Log Spring Project between the Prescott National Forest and the National Wild Turkey Federation has been completed

Summary

A three rail pipe fence was constructed around Log Spring utilizing materials provided by the Prescott National Forest to prevent livestock and motorized vehicles from damaging the spring and riparian area. Two wood and cable watergaps were installed with materials provided by the NWTF to allow high water flow and debris from taking out the pipe fence.

Cooperators in addition to the NWTF include Mule Deer Foundation, Arizona Game and Fish Department, Arizona Sportsmen for Wildlife Conservation. Cooperators financial contributions paid for the welding on the pipe fence and all other materials utilized. Labor to assist the welder and to construct the watergaps was provided by the Yavapai Yelpers Chapter of NWTF.

A handwritten signature in cursive script that reads "Steve Sams".
