Gary (and others at AZSFWC):

Thank you for your grant of \$1000.00 in support of our TU Trout in the Classroom program at the Prescott Valley Montessori School. It may interest you to know that the teacher involved, Mr. Paul Montz, had a TIC project in at school when he was a youngster in California and his good memories of that experience prompted him to request our help in starting the TIC program in his school. Your grant made this possible. Thank you again.

Gratefully,

Stephen F. La Falce,
President, GCTU
